Career Objective

Offensive Security Practitioner with hands-on experience in web application penetration testing, reconnaissance operations, and vulnerability assessment. Aspiring networking and cybersecurity enthusiast with a strong foundation in IT infrastructure, security tools, and threat mitigation strategies. Dedicated to designing, monitoring, and securing network environments to enhance organizational resilience. Focused on proactive threat detection, vulnerability assessment, and implementing robust security practices while continuously learning and applying industry best standards.

Education

BSc (Hons) Computer Networking & IT Security 2023 - 2026

Islington College, Kathmandu

London Metropolitan University

School Leaving Certificate (SLC) 2021 - 2023

Baylor International Academy

National Examination Board

SEE 2021

Dhulikhel High School

National Examination Board

Work Experience

Offensive Security Intern

Ambition Guru, Durbar Marg, Kathmandu

August 15 – November 14

- Work with team with vulnerability identification and penetration testing.

- Conducted VAPT, API testing, and Linux assignments.
- Performed reconnaissance scans for domains and endpoints.
- Used Linux terminal for file management and security tasks
- Collaborated in team meetings with supervisor.
- Writing VAPT, API, Linux, and security reports.

Skills

Technical Skills

- Operating Systems: Windows 10, Ubuntu, Kali Linux
- Networking: Cisco Packet Tracer, IP Addressing, TCP/IP, DNS, DHCP, LAN Setup
- Security Tools: Metasploit Framework, Nmap, reconnaissance tools, vulnerability assessment tools, Linux Command Line
- Design Tools: Figma (UI/UX prototyping and wireframing)
- Applications & Software: Visual Studio Code (VS Code), Arduino IDE, Cisco Packet Tracer
- Virtualization & Support: Oracle VirtualBox, basic RDP usage for support and remote access
- Documentation: Report writing, test case documentation

Soft Skills:

- | | | |
|----------------------|-------------------------|-----------------------|
| 1. Communication | 3. Interpersonal skills | 5. Team Collaboration |
| 2. Creative Thinking | 4. Time Management | |

Projects:

Academic Projects:

Backdoor Exploit Analysis vsftpd 2.3.4

Analyzed and exploited vsftpd 2.3.4 backdoor using Metasploit on Kali Linux. Recommended mitigation strategies to prevent unauthorized system access.

Printer E-Commerce Website

Developed a responsive multi-page e-commerce website using HTML, CSS, and JavaScript for a printer store, showcasing products, contact details, and blog posts.

Land Rent Management System

Built a Python-based CLI application to manage land renting, returning, and tracking.
Showcased data handling and automation through logical workflows.

Cryptography – Quadracrypt Cipher Algorithm

Developed a multi-layered cipher combining Playfair, Caesar, shift, and XOR techniques for enhanced encryption.

Fingerprint-Based Door Lock System

Created an IoT smart lock using ESP32, AS608, and Blynk for fingerprint-based access with real-time cloud alerts.

Training and Certifications

<u>UI/UX Design Workshop</u>	2024
<u>AWS Academy Cloud Foundations</u>	3/19/2025
<u>AWS Academy Cloud Security Foundations</u>	3/22/2025
<u>AWS Academy Cloud Operations</u>	4/2/2025
<u>AWS Academy Cloud Architecting</u>	4/4/2025
<u>API Security Fundamentals</u>	8/22/2025
<u>Introduction to Linux</u>	8/30/2025
